United States of America

Department of Transportation -- Federal Abiation Administration

Supplemental Type Certificate

Number SR01046AT

This certificate issued to

Rick Sweet 1728 Deer Run Rd. Neosho, MO 64850

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 6 of the Civil Air Regulations.

Original Product - Type Certificate Number :

H3WE

Make:

McDonnell Douglas Helicopter Company

Model:

369A, (Army OH-6A)

Description of Type Design Change:

Installation of an Allison model 250-C10D (T63-A-700) engine in accordance with James Roberts' "Installation Instructions or Conformity Inspection for Installation of Allison 250-C10D (T63-A-700) Engine in Hughes 369A (OH-6A) Helicopter" dated May 22, 1996. or later FAA approved revision.

Limitations and Conditions:

This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. James E. Roberts' FAA Approved Rotorcraft Flight Manual Supplement dated May 22, 1996, or later FAA approved revision is required.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application : March 07, 1996

Date of issuance : May 22, 1996

Date reissued : July 06, 2005

Date amended :
